

REYYAN ALAM

Backend Engineer · Node.js & APIs · Cloud & DevOps

reyyanalam6@gmail.com · +92 322 9113106 · Islamabad, Pakistan · github.com/Reyyan31 · reyyan-portfolio.vercel.app

PROFESSIONAL SUMMARY

Backend Engineer with 1+ year of production experience building systems that handle real users at real scale — from a national government platform with 1M+ users to an ERP managing 12,000+ students. Comfortable in Node.js, PHP/Laravel, and Django, choosing the right tool for the job. Solid DevOps fundamentals: Linux administration, Docker, CI/CD, and cloud deployments. Experienced in remote async collaboration with a US-based engineering team. Open to relocation to EU/UK/US with visa sponsorship, or fully remote.

WORK EXPERIENCE

Backend Developer · Creative IT Park · Islamabad, Pakistan

Jan 2026 – Present

- Built SLS — a school ERP serving 12,000+ students across 8 role-based portals. Covers full student lifecycle, fee/challan generation with bulk print, attendance, exam grading, and financial audit reports (Excel/PDF).
- Built Hello Creative IT Portal — a company-wide CRM/ERP managing all staff HR (payroll, shifts, leaves), Kanban deal pipelines, Gantt-chart project tracking, invoicing, and a double-entry accounting module (P&L, balance sheet, ledger).
- Own all server operations: Linux/cPanel provisioning, SSL/DNS, environment separation, DB migrations, and production monitoring — maintaining ≥99% uptime across live systems.
- Standardised deployment process (staging → production, rollback procedures, health checks), cutting production incidents significantly.

Backend Engineer (Remote) · Nodestale LLC · United States

Oct 2025 – Jan 2026

- Built the production backend for BuzzMap (buzzmap.org) — a live real-time event-discovery platform — using Node.js/Express, MongoDB, Redis, and WebSockets.
- Delivered geolocation APIs, OAuth 2.0 auth, rate limiting, and structured error handling to US production standards in a fully async remote team.

Full Stack Software Engineer · Seven Concepts · Islamabad, Pakistan

Aug 2025 – Dec 2025

- Built and shipped content platforms (content upload, feed/scroll experiences) and e-commerce projects across multiple client engagements.
- Delivered across Node.js, Django, Flask, and PHP within the same company — framework-agnostic backend delivery under Agile/Scrum.
- Containerised services with Docker, deployed to AWS EC2/S3, maintained CI/CD pipelines and automated DB migrations.

Full Stack Developer · National Testing Service (NTS) · Islamabad, Pakistan

Jun 2025 – Aug 2025

- Built 15+ React/Redux components, improving page load performance by 25% for 100,000+ active users on Pakistan's largest national testing platform.
- Integrated React frontend with Laravel backend using JWT/OAuth and role-based access control.

TECHNICAL SKILLS

Primary — Backend: Node.js, Express.js, NestJS, RESTful APIs, WebSockets, JWT/OAuth, API design & documentation (Swagger/OpenAPI)

Primary — DevOps: Linux Admin (cPanel / Nginx / WHM), Docker & Compose, CI/CD Pipelines, AWS (EC2 · S3), SSL/DNS, Zero-Downtime Deployments, Git/GitHub

Also Proficient: Laravel / PHP, Django / Flask — additional backend stacks used in production

Frontend: React.js, Next.js, Redux, TypeScript, JavaScript (ES6+), Tailwind CSS, PHP Blade

Databases: MySQL, PostgreSQL, MongoDB, SQL Server, Redis — schema design, query optimisation

Languages: JavaScript / TypeScript · PHP · Python · SQL · C/C++

KEY PROJECTS

SLS – School Management System | PHP · Laravel · MySQL · Bootstrap

sls.creativeitpark.org

- 12,000+ students across 8 role portals; full student lifecycle, fee collection, challan bulk-print, exam grading, attendance.
- Financial audit suite with daily cash book, month-end reports, and Excel/PDF exports used by administrators daily.

Hello Creative IT Portal – CRM / ERP | PHP · Laravel · MySQL · Vue.js · Redis

hello.creativeitpark.org

- Company-wide system: full HR (payroll, shifts, leaves, attendance), Kanban deal pipelines, Gantt project tracking.
- Double-entry accounting module — ledger, P&L, balance sheet, cash flow, trial balance — used as the live financial system.

PomPak – National Financial Literacy Platform | PHP · Laravel · SQL Server · JavaScript

nflpy.knowledgeplatform.com

- 1M+ registered users · 750,000+ students · 45+ districts — backed by State Bank of Pakistan and JazzCash.
- 53 bilingual modules (English/Urdu) with SQL Server stored procedures and multi-tenant auth at national scale.

BuzzMap – Real-Time Event Discovery Platform | Node.js · Express · MongoDB · Redis · WebSockets

buzzmap.org

- Live platform for US client (Nodescale LLC): real-time event feeds, geolocation APIs, OAuth 2.0, Redis caching.
- Fully remote delivery to US engineering standards — async collaboration, PR discipline, API versioning.

EDUCATION & CERTIFICATIONS

B.Sc. Computer Science · Air University, Islamabad · *In progress*

Professional Credentials

- **Experience Letter — Creative IT Park** — *Backend Developer · Jan 2026–Present*
- **Experience Letter — Nodescale LLC (USA)** — *Backend Engineer · BuzzMap · Remote*
- **Employment Certificate — Seven Concepts** — *Full Stack Software Engineer*

Available for remote, hybrid and onsite roles - globally and in Pakistan · Can start immediately
